4 EASY TO DIGEST STEPS

The DIYvorce Process

1 Complete Your Questionnaire

Start by filling out a guided online questionnaire that collects all the details needed for your divorce paperwork. Don't worry—if anything's unclear or missing, we'll help you fill in the gaps.

2 Review & Refine

Once submitted, your dedicated paralegal reviews your answers to ensure everything aligns with court standards. If more information is needed, we'll reach out and walk you through the next steps.

3 Draft & Edit Your Documents

We'll create your draft court documents based on your responses. You'll have the chance to review and request edits before we finalize everything—no legal jargon, just clear, accurate paperwork.

4 Sign & File with Confidence

When you're ready, we'll send the final documents via DocuSign for easy signatures. If you'd like, we'll even e-file them with the court on your behalf—no printing, mailing, or guesswork required.
